

HANK

Jesus, Ned, someone killed  
Waters and Brown. What the  
Hell's going on?

CHIEF

I don't know, but I'm betting  
that James Harrison has something to  
do with this. Call County and  
and get some backup. I'm going  
after Harrison.

129 INT HARRISON CAR - NIGHT

Kristy pulls up and parks in front of Brad's apartment. She  
looks it over. She opens her PURSE and takes out a canister  
of MACE. She climbs out.

130 INT DOCTOR'S OFFICE - NIGHT

James now has the GUN DROOPED AT HIS Side after having  
heard the tape recording. James is stunned by what he's  
just heard. He steps back and almost collapses in the  
chair.

The doctor sizes up his patient, then;

DOCTOR

A psychiatrist can live a  
lifetime and never ever find  
a patient like you, James.

JAMES

But, how?

DOCTOR

When a child experiences a traumatic  
event, such as you did, it's  
possible to fracture off a new  
personality, one that can deal with  
the emotional strain. You ...created  
Frank, the man in the raincoat.

JAMES

Bullshit.
